By Telegraph to The Times.
PARIS, Feb. 7.—[By Cable and Associated Press. | Prompt action by the government today nipped in the bud what was ap-

parently intended to be a Royalist coup d'etat, modeled after Louis Napoleon's mad descent upon Boulogne, and only the consequence is that the Duke of Orleans. eldest son of the Count of Paris, is in custody tonight. The Duke arrived in Paris today, bearing

a letter written and signed by the Count of Paris announcing to the faithful and to all others the Count's abdication. He also had with him a manifesto addressed to the with him a manifesto addressed to the people of France. Nominally and according to the theory of pretenders, a pretender is always a king, and therefore in virtue of the abdication all claims, rights and titles descend to his eldest son, the young gentleman now in the hands of the authorities, Philippe Louis Robert, Duke d'Orleans. This gentleman is therefore not merely one of many vagrant princes, but an actual pretender to the throne in virtue of his claims as heir of the old Bourbon line. His com-ing into the country in violation of the law banishing all heads and direct heirs of reigning familles is a rash escapade, if it

stands alone. METHOD IN HIS MADNESS. The fact that he was equipped with an appeal to the nation shows his intention, and may make the escapade serious for him. If it should be developed that this movement is made in virtue of an understanding with the partisans of the monarchy in France, it may be more than a mere vio-lation of the law of expulsion.

There is some reason to believe that the movement is made in concert with the more determined opponents of the republic, as the Duke repaired immediately to the house of the Duke of Luynes, the present head of a femily that has always adhered with uncompromising heroism to the old monarchy. In that house the young gentleman was King of France in theory. On the day

This is the only view in which the case has a serious face. Aside from this, it seems MAD BOYISH PRANK.

Nobody just now is likely to be very fierce about the pranks of a boy who is related to all the royal families in Europe, and whose grandmother was of the house of Mechlenburg-Schwerin.

It is also reported that he did endeavor to enlist as a private soldler, but was refused for some informality in the application. He finally wrote a private letter to De Freycinet to the effect that he had no intention to remain in Paris nor create difficulty; that he was legally precluded from holding any rank in the army, but was ambitious of the honor of serving France as a private soldier. Shortly after this he was arrested.

at Yakutsk, April 3d last, the occurrence of which has hitherto been strenuously denied by the Russian government.

One of these letters, written by a survivor of the affair, is 61 pages in length and sets forth with great exectness of detail every particular of the massacre and the events leading up to and immediately preceding and succeeding it.

Kennan deciares the communication to be of the most impartial character and even unimpassioned in tone, and says it is to be thoroughly relied on; but he withheld the names of the correspondents, as the publication of their names would involve them in trouble with the Russian administration. The story of Kennan's correspondents agrees in many particulars with the account published in the London Times, but gives in addition many details hitherto unknown, and the language of the writer is at times most graphic.

"I consider this information received from Russia," said Kennan, "so minute and circumstantial in every detail, and knowing the reliability of its source, to be a complete and conclusive answer to the denials of the Russian government. William Tallert, president of the great Howard Association of England, says every effort will be made to bring this matter before the International Prison Congress, which will meet in St. Petersburg. If the Russian government will perint it, and is ready to meet the issue, I will undertake to prove before the Prison Congress every charge that I have arrayed against it in my article published in the Century, or which have otherwise been brought forward by me. In abstantiation of these charges, I agree to bring my witnesses from Siberia, and to defray the whole expense of such proceedings."

Duke was in France, in violation of a law made purposely for excluding his father and himself as enemies of the republic. This law has been remitted only in favor of the Duke d'Aumaie. Therefore the Duke d'Orleans was at once arrested at the house of the Duke de department during the campaign. the Chicago Convenience of Police, where his identity was fixed beyond all doubt, and where the process verbal of his violation of law was drawn up. He was then detained at the Conciergerie, famous as the place of detention for reyalty in distress. In the afternoon he was arraigned before the military authorities at the Central Bureau.

THE PRETENDER'S AUDACITY.

In response to an inquiry as to the object and purpose of his visit to France, he said that having attained his majority, he had come to France to place himself at the disposal of the military authorities. This dash of audacity is regarded as a very happy stroke, and is sure to make friends for him, for a gallant French boy, who wants to take chances for conscription, is somewhat the world's Fair.

ANOTHER JUDGMENT AGAINST PIO PICO RENDERED.

Controversy-Estella Foster Gets Off on a Habeas Corpus-Photo graphing the Colored Firebug

Pio Pico against the late B. Cohn was ouce more decided against Pico yester day by Judge Shaw in Department No. 5 of the Superior Court. The case is one of the best known in the history of litigation in Southern California, and has been in the courts in one way or another for several years. The strug-gle of the aged ex-Governor of California to retain possession of the property once his own is a pathetic one. He is of a past generation, and the larger part of the citizens of Los Angeles are scarcely aware of his existence, though he was formerly so cosely identified with the early history of California. By the decision of Judge Shaw yesterday he is once more required to turn over the Pico House in this city, the ranch and other-property once belonging to the estate to the estate of B. Cohn.

The case came up before Judge

furnished by B. Cohn. The manner in which the money was supplied became the basis of the long and tedious litigation before mentioned. Mr. Cohn litigation before mentioned. Mr. Cohn claimed that he had bought the property outright, paying the debts and a few thousand dollars in addition as the price. Pio Pico dfd give Cohn a deed for the property, but claimed then, as he does now, that the transaction was not a sale, but that the money was supplied as a loan, and that it was the undestanding between himself and Cohn that the latter would re-deed the property to him. This Cohn declined to do, and the litigation began. The case was decided against Pio Pico in the Superior Court, and was taken to the Supreme Court, where the decision

The experiment proved a failure, Mrs. Sloan having several violent spells and seem-ing to grow worse. She was committed to Stockton, and was taken there yesterday afternoon, her parents trusting that the treatment which can be given her there will restore her to her right

mind.

An amusing incident occurred in the County Jail yesterday, when a photograph was being taken of John E. Lattimore, convicted of arson. He objected stremuously to having his picture taken, and when placed in front of the camera, screwed his black features into extraordinary shapes. The Sheriff and photographer were narrowed. of the camera, screwed his black features into extraordinary shapes. The Sheriff and photographer were nonplused, but did not show it, and used strategy in the case. Sheriff Aguirres seemed to be delighted at the faces Lattimore was making, and told him suddenly to keep it up, and as soon as the photographer was ready they would take him that way. Lattimore, not being familiar with instantaneous photography, and thinking that the camera was not ready, relaxed his features, and they assumed their ordinary expression. The cover was remaded a good one it was. At this instant, divining a trick, the prisoner resumed his facial contortions, when he was told it did not matter now. His rage knew no bounds when he realized that he had been outwitted, and he swore loud and long, but a good picture of Lattimore will take its place in the gallery of criminals.

The case came up before Judge Shaw yesterday upon a demurrer to the complaint, but the merits of the case were virtually gone into, and the opinion filed by the Court, quite a long one, discusses the merits more or less. The points at issue are briefly as follows: Plo Pico's estate was deeply in debt some time ago, and the money in the case were to be complaint, and the money about sixty thousand dollars—was about sixty thousand dollars—was furnished by B. Cohn. The manner in which the money was supplied became and showing their ticket to Los Angeles will be passed free to Whittier and back. Four or five months ago a big sensation was caused by the absconding of C. K. Drane, the book-keeper and cashier of the San Peero Lumber Company, who skipped out for foreign parts after defrauding the company out of a sum variously estimated at the time at from \$10,000 to \$50,000.

Interest in the case died out, after the usual nine days' talk, when it was suddenly revived by rumors that the local manager at San Pedro was implicated in Drane's crookedness. These rumors caused a bigger somation than the story of Drane's downfall, as the manager was well known in this city, and occupied a high social position, and it was not until Mr. Reynolds had been removed from his position, and it was stated that he had turned over all his property to the company to make good his deficit, that the rumors received much attention. The inside facts in this connection never came out, as the officers of the company declined to make any statement, and Mr. Reynolds was equally reticent, and this incident soon dropped from the public view, as there were no legal proceedings commerced. This was some three months ago, and since that time nothing has been heard of the San Pedro Lumber Company and its affairs in the papers. THE CROSS ROAD NOT SOLD TO THE UNION PACIFIC.

A Newspaper "Fake" Pure and Simple-Capt. Cross Interviewed-The Patti Train Goes Through -Aecident at Redondo - The Grocers' Excursion to Arrive the 15th.

The Tribune's railroad reporter is a bird that has not yet shed his pin-feathers. He has been scooped right and left on the extension of the Union Pacific to this Pacific to this city, and to get even with himself for being a chump he boosted the Union Pacific into this city yesterday morning in a manner that made him the laughing-stock of every railroad man in the city. He stated that the Union Pacific has pur-

chased that the Union Pacific has purchased the Cross road, whereas the Union Pacific people have never thought of such a thing.

Capt. John Cross, the principal owner and general manager of the rosd, was seen last evening and asked if he had read the silly article.

"Yes," said Capt. Cross, "I have, and it is false in every particular. It is a fake, pure and simple, and I can't understand their object in printing such a wild story. There have never been negotiations of any kind to that end. So far as I know the Union Pacific does not want my road, and I am sure I do not care to sell it. When it is completed I will have a good paying property, and so far as I know now I will never sell it."

There has been some talk about the sale of the Cross and

property, and so far as I know now I will never sell it."

There has been some talk about the sale of the Cross road to the Gould syndicate, and the chances are that the amateur railroad reporter has tangled himself up.

Yesterday morning at 7 o'clock the Patti train, consisting of 12 coaches, passed through this city over the Southern Pacific road on its way to San Francisco. The party is just from Mexico, where they have been charging the music-loving public of that country from \$4 to \$16 admission to their concerts. They were anxious to stop over here and go through the same system of high-toned robbery, but the citizens of Los Angeles were born "heap day before yesterday," and the high-priced singer had to content herself with a glimpse of the Angel City.

Thursday afternoon, while Conductor Qualey of the Redondo and Los Angeles road was assisting in coupling cars at the "Y" in Redondo, he was caught between two cars and quite badly crushed. No boars were broken, and it is hoped that he is not fatally injured.

Coroner Meredith yesterday held an inquest on the body of R. M. Beach, who died suddenly at his residence, near the University, Wednesday between 11 and 12 o'clock. Mr. Beach had been in bad health for some time, and died while being told about an There was nothing at all suspicious about Mr. Beach's death, but as he died without a physician being in attendance, the Health Officer declined to give a burial certificate. University Methodist Church yesterday at 2:30 o'clock, a large audience being present. The casket was borne into the church by six of Mr. Beach's neighbors—Messrs. Luke, Twiss, Sinsabaugh, Rixby, Simpson and Sefton. Following the casket came a guard of honor composed of 16 members of the Jc'an A. Logan Post, G.A.B., of which Mr. Beach was a member. The colors were draped with black crape. In response to a general invitation the following ministers were present: A. C. Williams, J. W. Van Cleve, A. C. Cox, J. A. Brown, A. J. Wells, John Dickinson, W. A. Knighten, G. M. Bovard, D. C. Cobb, Selah W. Brown and F. B. Cherington.

The order of service was as follows: Reading of hymn, by Rev. J. W. Van Cleve, and singing by the choir; reading of Psalm 39, by Rev. A. J. Wells; prayer, by Rev. D. C. Cobb; singing; addresses by Rev. F. B. Cherington, Rev. A. C. Williams, and the pastor, W. S. Matthew. In his address Dr. Cherington. a former pastor of Mr. Beach, spoke of the latter's unfailing kindliness of heart. His left hand did not know what his right hand did. He never refused to help one in need. Rev. Dr. Williams confirmed these statements from his acquaintance with Mr. Beach in the East, and said that these were life-long characteristics. Dr. Matthew gave a sketch of the life of Mr. Beach, of which the following is an outline: He was born in Pennsylvania in 1821, and at the age of 20 entered the Methodist ministry. He preached for 15 years in the State of New York, and afterward in Wisconsin and Illinois. He was a contributor to the Ladies' Repository, the Methodist, the Northern, Buffalo, and Central Christian Advocates and the daily papers. He was generous with his money, giving to the University of Southern California and to Hamiline University, besides, aiding various struggling churches. He was kind to the poor, but was best at home and as Southern California and to Hamine University, besides, aiding various struggling churches. He was kind to the poor, but was best at home and as a neighbor. During the war he was chaplain of a Wisconsin regiment.

The remains were buried in Rosedale Cemetery.

Even the churchmen of Southern and Northern California cannot keep from quarreling-of course, in a mild and strictly clerical manuer. It is evident that the time will come, one day, when the two sections will have to agree to differ, and become twain, but

the "proper time" has not yet arrived. THE world is growing wiser yearly in its appreciation of the value of printer's ink. It is estimated that there was paid for advertisements in this country in 1867 over \$10,000,000. The business world has not been blind to the advantages derived from such outlay, and now the present yearly expenditure in this direction is estimated at the enormous sum of \$30,000,-

"JAYHAWKER" writes a slashing letter, one calculated to stir up the animals and cause the corraled journalistic cattle to bellow and threaten to break out of their pens; but still we do not believe that his political missive in last Sunday's TIMES will provoke the "magnets" at the corner of Fourth and Townsend to put up any money to save a dishonored, dying, blackmailing Los Angeles newspaper from deserved dissolution. IN STORM AND IN CALM.

Hitherto, while other sections of the country and the world have suffered from the direst disasters, involving great loss of life, and the vast destrucion of material interests, the Pacific Slope has been almost entirely exempt from these evils. But the present year has brought unusual experiences to this slope. Large sections in the northern part of the State have been flooded. Unprecedented storms have prevailed; phenomenal quantities of snow have fallen in the

mountain regions; and in Oregon and Washington the climatic conditions have been even more severe and abnormal than in the northern part of California. While the loss of life has been small, the destruction of property and of business interests has been im mense in the more northern sections of the Pacific Slope.

OUR PARKS.

If our city parks are to be taken care of by the State, it is to be hoped that they will receive better consideration at its hands than they have yet received at our own hands. Los Angeles is still very poor in park improvements. She has as yet no park of any extent where her population can go for pleasant rest or recreation-none with extensive drives and combined natural and artificial charms which afford a breathing space sufficient for her large population. Elysian Park may be so improved as to become one of the most attractive and delightful resorts. In the charms of its perspective it may be made to far outrival the Golden Gate Park of San Francisco. Its elevation is in its favor. and it may become, with due expenditure, one of the grandest and most attractive features of our rapidly-growing city. Let us secure its improvement as early as possible.

WE are not, as a rule, favorable to the establishment of more banks in Los Angeles, because we believe that more than enough local capital is locked up in that way already. it comes to banks which bring in outside capital, however, we make an exception, as that tends to make money cheaper, and may result in driving some of our local capital into more productive channels. By the way, competition among our savings banks must be growing rather close, when one of them is led to advertise an offer of a \$50 prize for the depositor who deposits the largest amount in the bank during the present year.

MR. WILLIAMS of Illinois has introduced an out-and-out silver bill, directing the Secretary of the Treasury to purchase, at market price, \$4,000,000 during the depressed reactive condition from which the country has now have it coined, as fast as purchased, into standard gilver dollars. This is the extreme demand of the silverites, the extreme demand of the silverites,

Again, Mr. Estee of this State, and a delegate to the Pan-American Congress, has drawn up a plan for the consideration of the congress, which involves the adoption of a common silver coin for all American nations. This would give silver a great spurt. Altogether, there is no doubt that the silver men

will receive some substantial recognition during this session of Congress. AFTER decidedly refusing to entertain the World's Fair Bill, the New York Senate has reconsidered its action by a unanimous vote, and passed the bill by a vote of 18 to 5. That is all rot. It is due to the bankers of Southern California that the season of superexaltation of land transactions resulted in no financial crash. He, with all the other bankers of this section, refused to aid in purely speculative schemes, and the result was that during the depressed, reactive condi-

THE LOTTERY CASES

of the Defendants Plead Guilty and Pay Their Fines.
The Louisiana lottery agents, arrested some days ago, came before Justice Austin yesterday, when all of them, with two exceptions, entered a plea of guilty, and were fined comparatively small sums. Assistant District Attorney Phibbs stated that an arrangement had been arrived at by which, if the lottery men pleaded guilty, paid their fines and promised to give up the business they would be let off with small fines, and it was on let off with small fines, and it was on this understanding, and the promise of the lottery agents that they would discontinue the business, that Justice Austin let them down so light. The following flues were then imposed, which were paid, and the defendants discharged: Mrs. Ferner, \$15; Levi Gunst, \$20; E. Goheng, \$15; Levi San-derson, a 13-year-old boy in the employ of Max Harris, \$5; Max Harris, \$30; J. Sanders, \$20. Sanders, \$20 C. Greenwald, against whom two

Dei Valle & Munday, asked for time to plead, which was granted, and the time for hearing was set for Tuesday, the 11th, at 9:30 o'clock, with bond fixed at \$100, which was given.

John Doe Wolfstein was not in court, but was brought in by Detective Bosqui about 4 o'clock. He was accompanied by his attorney, Hugh Crawford, Esq., who filed a demurrer, which was promptly overruled, when he entered a piea of not guilty, and demanded a jury trial. After some talk, the date of hearing was fixed for Thursday, the 18th, and Wolfstein was given until this morning to file a bond of \$100.

LANCASTER, SUICIDE

Dr. E. E. Willard Plants a Bullet in His Heart. About noon yesterday a telegram was received at the Coroner's office from Lancaster stating that a man had committed suicide at 11:25 o'clock, and asking that the Coroner come up. Meredith was busy at the time holding the Beach inquest, but finished in time to catch the train for the north, which left at 1:30 o'clock. None of the par-ticulars of the affair could be learned, but during the afternoon a private tele-gram was received in this city from de los Casas to the effect that a Dr. Willard had shot himself dead. resident of Lancaster or whet was in that place on professional busi-ness. Coroner Meredith will return

Late last night the following special dispatch, signed "Drummend," was re-ceived from Lancaster, giving the de-

tails of the tragedy:

The inquest on the body of E. E. Willard, who committed suicide by shooting himself here today, at about 11.79 o'clock, was held by Coroner Meredith. The ary soturned a vertilet to the effect that an effect accurate to his death by a gunshot wound inflicted by his own hands. The dece sed was a native of Indiana, and came to Larcaster about three weeks ago, awing he would start a drug store. He had no money, and as he had some good credentials, S. A. Drummond paid his hotel bill for two weeks, expecting him to repay him when the two weeks were up. Mr. Drummond wanted some guarantee that he would get his money, when Wilard seemed to get despondent, and wanted to raise a row with Drummond, and when told by the Constable that he was under arrest he took out his revolver and snapped it. It falled to go off. He then repeated the effort, when the gun went off, the builet entering his body a little under the left nipple, causing aimost instant death. His friends have been telegraphed to, but as yet nothing has been heard from them.

A PERMIT AND A GUN. How an Obstreperous Barber His Privileges

Citizens in the vicinity of Sixth and Mateo streets are considerably exercised over the antics of a barber who lives in that neighborhood. The barber has a permit to carry a revolver. and it is said that he has a babit of displaying his weapon on the slightest provocation, when he goes down the street with the pistol in one hand and his permit in the other. A few nights ago he was passing along the street, when a dog barked at him; he drewhis appeared on the scene and was flo ing he permit. It is said that the people of the neighborhood are terrorized, and that complaint will be made to the Mayor, who will be asked to revoke the permit.

Guilty as Charged. The case of Lizzie Miller, charged with keeping a house of ill-fame, came up before Justice Austin yesterday. Ella Pierce, a former inmate of the house, who has since reformed, testi-fied to the character of the place, as did also a number of police officers and detectives. The defense offered no testimony, and the Court found the de-

testimony, and the Court found the de-fendant guilty as charged; and she was ordered to appear in court at 10 oclock this morning for sentence. Judgment was also given against the Miller woman for \$37 in a civil suit brought by Ella Herce to recover cer-tain property, which has been illegally detained by Lizzie Miller.

Paid Their Fines. John Quinn and C. Sweets, who got into a fight on Frst street, Thursday night, were yesterday fined \$10 each for their fun by Justice Austin, which was paid and they were discharged. Sweets had put up a \$20 forfieit, and did not appear, when a warrant was issued for his arrest, and he was brought into court. He was somewhat surprised at getting back half of his money.

Left Town.
The notorious Frank Harrington has left town. He was convicted of vagrancy, but sentence was deferred until 4 o'clock, to give him a chance to get out of town. He improved his opportunity, for when his case was called at the hour named, he failed to appear, and sentence was imposed, to go into effect should he ever return.

A Heavy Penalty. Yesterday a man named Rozell was fined \$10 by Justice Austin, for petit larceny. Rozell stole an armful of hay from a neighbor some time ago,

Officials Indignant at the Passage the Lottery Bill.

Wanamaker Threatens to Appeal to Congress for Help.

Accounts of the Reason Further Why Edmunds Left the Foreign Relations Committee

WASHINGTON, Feb. 7.- By the Associted Press. The news of the passage by one branch of the North Dakota Legislature of a bill chartering and legalizing a lottery has attracted much attention in official circles, in view especially of the telegraphic advices that the action is in behalf of a branch ot the Louisiana Lottery Company, against which the Postoffice Department and De-partment of Justice have been waging a contest for many years. At the White contest for many years. At the White House it is intimated that the reports nave reached the President that persons who reached the President that persons who have been appointed to office, or were candidates for appointment, were promoting this legislation, and it was added that should this prove to be case it is likely to prove fatal to them. A further remark was to the effect that it was not believed to be possible that the new State would adopt a measure that would put so indelible a stain upon its reputation. Postmaster-General Wanamaker said: "As Postmaster-General I cannot be interviewed upon the subject, except

Postmaster-General Wanamaker said:
"As Postmaster-General I cannot be interviewed upon the subject, except to express my regret that the mails or any machinery of the Government should be used to any extent in any part of the country for the furtherance of lottery schemes, but as scitizen I am free to say that it is a cause for great alarm when a new State proposes to spread this evil over the country, and spread this species of gambling that ruins the young and deludes the ignorant for the enrichment of a few unscrupulous stockholders. It this kind of lexislation is to be a success, Congress must be invoked to enact laws to suppress this iniquitious business everywhere."

"I was astonished beyond measure," said Atty.-Gen. Miller this afternoon. "I had hoped and believed the day for chartering lotteries had gone by. That the Louisiana State Lottery, for instance, is a public evil I think is generally conceded, and I as little expected the Legislature of North Dakota to sanction a lottery as that the Legisture of Massachusetts would legalize polygamy."

EDMUNDS WAS ANGRY.

Why He Resigned from the Foreign

Relations Committee.
CHICAGO, Feb. 7.—[By the Associated Press.] A special from Washington says: Senator Edmunds caused a sensation in the executive session yesterday. He charged John Sherman with bad faith and made the charge the ground for resigning from the Foreign Affairs Commtttee. On Tuesday, Foreign Affairs Committee. On Tuesday, after the Samoan treaty had been ratified. Edmunds put in a resolution declaring that under it none of the rights of the United States under the treaty of 1878, which gave

States under the treaty of 1878, which gave the United States a coaling station at Pago Pago, were impaired. The resolution was rejected.

This angered Edmunds, who claimed it had been agreed in the committee that it Edmunds would not oppose the ratification of the treaty his resolution should be passed. He brought the matter up in executive session, and charged Sherman with clokery to the matter.

States Supreme Court in the case of Neebe, Fielden and Schwab, the Anarchists now in the State penitentiary, on the claim that the prisoners were deprived of their constitutional rights by not being permitted to be present when the State Supreme Court passed upon their appeal. This is a point not heretofore decided by the Federal Supreme Court, and if sustained, will not only release these Anarchists, but in effect say that Spies, Parsons and the others were illegally strangled, and will liberate many other prisoners in prison.

Leading lawyers, however, are of opinion that this move can be of no benefit to the imprisoned Anarchists in any case, and may m ke it worse for them. There is no claim of error in the lower court, and if the point is sustained by the Federal Supreme Court it may result in reaffirmation of original sentence. This was that they be hanged, and they would have to suffer that penalty unless the Governor should again interfere, as did the former Governor, and commute the sentence to imprisonment.

FURIOUS STORM RAGING IN PENNSYLVANIA.

Buildings Demolished by Wind and Communication Interrupted by Water-Blizzard in the Far North.

By Telegraph to The Times.
PITTSBURGH, Feb. 7.—[By the Associated Press.] The worst storm in years has been raging throughout Western Pennsylvania since noon today. Snow, hail, rain and wind have been playing havoc. In this city snow and siush blockaded many of the streets and stopped street-car traffic, while telegraph and telephone wires are breaking down under the heavy weight of ice with which they are coated. In the mountains the storm is raging with terrific fury, and

At Bleuersville, Pa., a large glass factory was demoiished by the wind. The roof was blown off and the two side wails fell in. Charles E. Barr, general manager, and Mr. Burney, one of the firm, were instantly killed, and workmen were badly injured. At Uniontowa the roof was blown off the Methodist Episcopal Church, part of it alighting on the house of John Brown, crushing it in like an eggshell. The tower of the church, it is feared, is so badly shattered that it will have to be torn down. The roof of a large new building, lately erected by the Pennsylvania Construction Company, below the town, was also blown off. Postmaster Baker's new house was nearly demoiished, also James Fremkenberry's house, and John Wringer's house was leveled to the ground. Telephone and electric wires are all down. The gun was discharged and the palm of one of his hands was taken off. The full load entered Ferguson's body at the spine, and it is possible his wounds may result fatally. It is thought he would have been killed instantly had not the force of the shot been lessened by the hand that was maimed. Blood was spattered over Fulds's face, but he received no injuries. Renfree was about to start to the country on a hunting trip. He cannot account for the gun going off unless it was owing to faulty construction.

The removal of Ferguson's coat and shirt by the surgeons at the Receiving Hospital revealed a score of ghastly, jagged wounds. There must have been one hundred of the leaden pellets in the charge which he received. The whole load remains in the wounded man's body. The physicians consider his injuries fatal, as the spinal column is badly shattered, and inflammation of the spine will certainly set in, if the shock and loss of blood do not cause death. M'CARTHY AND DIXON FIGHT AT BOSTON.

seventy Hard Rounds with "Regu lation Gloves"-Science and Hard Hitting-The Fight

By Telegraph to The Times. Boston, Feb. 7,—The fight at the Union Athletic Club, South End, tonight, between George Dixon, the colored bantam, and Cal McCarthy, concerning which there had been much speculation, came off and proved a most stubborn contest. The matter was kept very secret to prevent police interfer-

and medals, was in reality a "blood" fight to settle the bantam championship. There was a large attendance of sports from all over the East, and a great deal of money was wagered upon the result.

The fight was declared a draw at the end of the seventieth round.

Dixon was seconded by Tom O'Rourke and Tom McGuegh, and McCarthy by Tom Collins, Jack O'Mara and "Chappis" Moran. Danny Gumn held the bottle, while Mike Sistery and Jack McMasters kept time.

Dixon appeared in drab tights and McCarthy in blue. The men weighed 114%, and were in the pink of condition and in first-class spirits. Their hands were encased in the regulation gloves.

McCarthy streted in to win in short order, leading off with a left-hander on the negro's jaw. Dixon countered on his opponent's neck. Cal dodged him like a cat, though Dixon succeeded in getting in two or three during the lirst round, but they were light ones and the round was McCarthy's.

The second and third rounds were similar, and at the close of the third bets of \$1000 to \$500 were frantically offered on McCarthy. In the fourth the Bostonian put forth his reserve power. He led with both hands, and Cal had to do the hardest and quickest work he ever did in his life, and the close of the round found him dazed.

McCarthy had the best of the fifth and sixth rounds, but in the seventh Dixon went at him again, and after a sharp exchange of wind-and-jaw blows the lad from Jersey City went down to avoid punishment.

There was a clinch in the eighth and good short-arm work. Thep McCarthy gave two hard-body blows and Dixon landed squarely between the eyes. The Bostonians among the special set in the more famous opponent fosing heart and showing plainly that his jaunty notions of winning in a canter had disappeared.

When the fifteenth round was reached, betting was at five hundred dollars to four hundred dollars on the Boston boy. McCarthy got considerable severe punishment in the fifteenth, but came up smiling in the sixteenth and let Dixon have three good ones on the wind. Dixon ret

the way in which he rained blows on his rival's face and neck delighted his supporters amazingly.

In the twenty-second the odds were even. Dixon's legs began to show signs of giving out in the twenty-third, but he held himself together wonderfully and fought briskly. Clinches now became frequent and blows that meant business. Cal tried Sullivan's method of hitting his opponent a right-hander under the heart, but the son of Ham refused to be knocked out. There were no tame rounds.

In the thirty-fourth round Cal was hissed for unning, and in the forty-fourth Dixon was rushed to the ropes. In fact there was a rush in almost every round about this time.

It was the best and most equally-balanced contest any one in town had ever seen. The men were not angry. It was the science of pugilism that was being displayed, and in a royal manner. One round was just like another. Several times the referee had to caution McCarthy against cutting and using other foul tactics.

NOTE AND COMMENT.

THE somewhat notorious "person of the name of" Clark calls upon the populace, in another column, to listen to his tale of woe. And a two-em-dash of a tale it is!

. THE Pasadena Y.M.C.A. made its yearly report yesterday, and the state-ment of Mr. P. M. Green, the treasurer, s one that is very satisfactory to the friends of the movement.

THE Walnut-street crossing is a bad place, but there is in most cities a law preventing people from walking on the track. The track here is used by walkers as a highway, and it is a wonder that some one has not been injured before.

Col. Markham's visit to Washington will result in much good in connection with the Soldiers' Home at Santa Monica. In a few years this will be one of the most beautiful spots in Southern California, and will viewith the famous Home at Washington, D. C.

The report that the Union Pacific would come through Verdugo Cafion and connect with the Cross road is probably a pigment of some reporter's imagination, but if such an event should come to pass in the future Pasadena should neglect no opportunity to secure the road for the Arroyo Seco. ecure the road for the Arroyo Seco. We notice a Los Angeles contemporary claims that the "first flag to be raised over a public school building in Los Angeles city or county was unfurled from the top of University school yesterday afternoon." We regret to deprive the Angel City of the honor, but the American flag has waved over the Wilson grammar school of this city for many months.

THE Park Commissioners met at Judge Magee's office yesterday, and a number of propositions were made and examined. At an early day the oners will meet, and a week turday a public meeting will ne called, time and place to be given, and the matter presented to the public. Had this indebtedness, instead of hundreds, run up thousands, and published among or in the official list of debts of your many "busted boom?" insolvents with "no assets," all would have been well. But the man that struggles against taking advantage of the Insolvent Act; tied hand and foot with real estate, and after four years of litigation (absorbing all his ready means) he finally establishes a clear title to the most valuable portion through your Supreme Court—though losing thousands as to other portions adjoining—and places the same for the first time upon the market with the hope of paying all deserving of pay, in full, he is met, by way of encouragement, by an atticle made up by an ingenious reporter of just enough facts to give it the semblance of truth, all else being outrageous lies.

We defy Crandall, Gates, Sanborn & Vail, Kan-Koo, Lion, Strasburg or Robinson to show one dollar of Indebtedness against Mr. Clark on their books or papers; nor can they deny that this indebtedness of secretly more than five hundred dollars was incurred by any other person than a sister of Mrs. Clark who still owns, not only the same lot without any additional encumbrance, that she owned at the time, but having disposed of a small unfinished cottage in order to make a final payment on the lot (#6500.00 total cost of lot—mortgace but \$1500.), Mrs. Clark deeded to her, entirely GRATIS, an adjoining lot valued at \$6400, or originally, say \$4000, now, encumbered for \$2100 only, which latter sum was approved by the Superior Court a few months ago as ample security to an attact when at the time, but attact who still owns and a security to an attact when the still owns are a state.

The most important truths with reference to the brain were said to have been demonstrated during the past three years. The speaker then concisely told of the brain's structure, illustrating his remarks with some drawings of the organ. The cerebrum and the cerebellum, the medulla oblongata and the gray and white matter, of which the entire brain is composed, were described and illustrated in language so plain that even the youngest child in the audience could understand it.

With reference to knowledge recently gained, the Doctor said:

"While it has been known a long time the way in which we become aware of sensations, and also the way in which all our motions are produced, the new knowledge we have on the subject is that sensation goes to a particular part of the brain called the apparent

"Lawyer Clark" winds himself up with a P.S. stating that nothing in his screed is intended to reflect upon Judge McKinley. "In taking "Colorado Court' from us," says this slick citizen, "and its consequent loss of thousands, he was misled by the perfidy of our lawyer." knowledge we have on the subject is that sensation goes to a particular part of the brain called the sensory area, and all motion originates in another part of the brain called the motor area. Nay, more, that these areas are subdivided to correspond to every part of the body, both as to sensation and motion.

It is not the eye that sees, or the ear that hears, or the nose that smells but the brain that fidy of our lawyer."

After describing the methods employed to establish the theory of the functions of the brain being localized, the importance of the knowledge thus gained was emphasized by the statement that during the past three years over fifty lives have been saved by successful operations on tumors and abscesses on the brain, which cases would previously have been considered hope-Tourists Enjoying the Summer's Warmth—The Hotels. The daily list of arrivals at the Rayond are altogether satisfactory to the management. And no wonder the scesses on the brain, which cases would previously have been considered hopeless and abandoned to a fate of certain death. Brief attention was then directed to the brain's development, the differences existing in the brains of lower animals, and to a comparison between them and the brain of man; also to the differences in human brains, as bearing on the character and ability of individuals and their capacity to excel in different kinds of work, both mental and physical.

After detailing the divisions of the sensory and metor areas, the lecturer said: "With all these areas of sense and motion, so admirably planned, they would be absolutely useless and passed accommodations, is added such weather as we have had the past two weeks. Now it is a fully ascertained fact that all the brain areas I have described have definite memory areas associated with them." These latter were then discussed in detail in an interesting yet simple way, which only lack of space prevents publishing in full.

Very little was said to be known to a certainty of the cerebellum. "It seems, as far as is known, to be a sort of switchboard for the telegraph wires running from the motor area of the

It seems to be the function of the cerebellum to coördinate, as it is called, the movements of the different muscles—that is, to secure their harmonious action to accomplish a given end."

In closing. Dr. Van Slyck said: "I desire to call your attention to a single phase of the subject, which has impressed me most profoundly in the study of it, and which I should be glad to develop abgreater length, but which I can now only suggest as a subject of thought, and that is, the gradual evolution of the mental faculties between birth and mature age, and the striking confirmation the manner of it affords of the truth of the great principle of evolution in general, and to my mind, when considered in connection with heredity and which followed out to when considered in connection with heredity, and which, followed out to its logical conclusion, compels the be-lief in it as the great law, as well of mental and ethical, as of physical de-

The reading-room has been well attended, some days there being over two hundred visits. During the busy boom time, the association acquired a lot and commenced the erection of a lot and commenced the erection of a building; and had the boom lasted a little longer, would have been the possessor of a handsome building fully equipped for the work among young men; but the backward flow cut the career short, and ended the plans for the time being. In the fall of 1887, M. M. Meyers of San Francisco was called to the general secretaryship, and remained until May, 1889, when George Taylor, the present general secretary.

The present quarters are on Colorado street, where there is a reading-room in the Mills block. The Sunday afternoon meeting for men is held in Strong's Hall. During the depression in business and financial matters, the work relaxed somewhat, but the association held on with zeal and courage unabated, and has done a good work among young men the past year.

The reading-room is well appreciate..; the gospel meetings are well attended. Disappointments and discouragements have come to many of our young men, and this fact lays upon the association the greater responsibility and greater opportunity for the Lord's work.
On Sunday afternoon, February 9th, at 3 o'clock, the association will hold its third anniversary meeting in the M.E. Tabernacle. This will be a union massumeeting, at which time some interesting reports of the year's work will be given, and short addresses by the pastors of churches relating to

Valuable Advice for the Present Day

Mrs. Helen E. Sterrett, in a recent number of the Forum, contributes an article entitled "Housekeeping in the Future." In it she tells how in a few years electricity will supply light for the home, the family cooking and washing will be done outside, and there will be so little work in the household that the occupation of the domestic servant will be

But Mrs. Sterrett' article is simply a predic for the ladies who live in 1890. Their social cate nervous system, and the result is terriare growing alarmingly common. Many of them find that memory is failing; they are unable to recall the names of friends or tell whether they have performed some of their usual household duties.

Their nerves are in such a condition that very slight causes, or perhaps no cause at a!l, may irritate them. Life grows to be a burden. There is no need for despair, but there is great need of caution. Their nerves should be built up, life fortified and brain restered The Finance Committee of the Council met in Clerk Teed's office, but only routine business was transacted, and there were no recommendations of with that remarkable preparation, Paine's called the compound. Instead of the depressed and languagid feelings, after the Compound has with that remarkable preparation, Paine's and languid feelings, after the Compound has been used, they will feel active, vigorous and happy. To those who are weak and failing, ness and misery, we earneatly urge that they et upon this advice.

AT THE FOOTHILLS IN "AZUSA." WE ARE NOW SUBDIVIDING ONE OF THE CHOICEST 180-ACRE ranches in this ORANGE BELT into 10-ACRE TRACT: to place on the market at present bedrock terms and prices: only \$150 per acre, or % cash, balance 1, 2 and 8 years. We can show you orchards in the Asusa where the oranges soid this year for \$70 per acre from trees 3 years planted, and others from \$400 to \$500 per acre, according to age. This lovely valley of about \$300 acres, under the water ditches of the \$800 general River, is at the altitude just above the frost for, smut and sone making it one of the healthiest as well as the most productive for all purposes of any part of Southern California. Situated on the Santa Fe R. R., 23 miles from Los Angeles, where the rever first leaves the mountain, giving this valley a full and never-fail ng supply of pure water standing the test of the dryest seasons. It be ng also the head of the \$800 gabriel Valley, it is not far-nough in the interior to place it beyond the force of the delightful summer breezes from the ocean.

We also have some improved places in Azusa.
